MAKING LEARNING FUN! THE WAY LEARNING SHOULD BE!

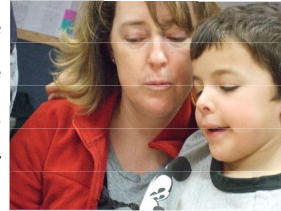

Learning should be fun. We make certain it is!

Applied Behavioral Concepts, Inc. provides state of the art therapies which include; natural environment (incidental), as well as discrete trial therapy (DTT) the most common form of treatment associated with autism. Carol D. Vancil, BCBA is able to support children through the principles of Applied Behavior Analysis (ABA) which is the only therapy proven to be effective for children with a spectrum disorder and is recommended by the American Academy of Pediatrics and the Surgeon General, as well as other professionals who work with special needs children.

Programs for children focus on support in developing appropriate classroom skills, utilizing task analysis for self help and social skills. Classroom inclusion opportunities for children, currently recommended by the American Academy of Pediatrics

as a best practice intervention, are offered through Collaborations CDC located near the Huntsville Jetplex, or for school aged children within the Cardinal School, also housed within the Collaborations building.

During the summer months, camps focusing largely on team building and social skills are available for children 5 through 12 years of age. Individual instruction may also be provided, at the request of the parent, to address specific behavioral or academic concerns.

Applied Behavioral Concepts, Inc. is operated by Carol D. Vancil. Ms. Vancil holds a Masters degree in Experimental Psychology from the University of Alabama in Huntsville as well as a Graduate Academic Certificate from the University of North Texas. Ms. Vancil is certified and registered as a Behavior Analyst by the National Certification Board and is a member of the Alabama Psychological Association. Additionally, she registered with Behavior Analysts, Inc. to perform the ABLLS assessment. Through continuing education and annual

participation in area, state and national conferences held for behavior analysts, Ms. Vancil remains abreast of current literature in order to best meet the needs of families and assisting children with a behavioral or learning disorder by implementing procedures which support the best practices and proven techniques and procedures from current research in ABA.

Applied Behavioral Concepts, Inc. currently offers services throughout North Alabama, Montgomery and Southern Tennessee.

Please call to discuss your child's educational needs or to learn more about the services offered in your area.

Play as well as a structured learning environment offer a variety of learning opportunities to suit different learning styles!
